THE OFFICIAL NEWSLETTER OF THE ALABAMA
STATE BOARD OF CHIROPRACTIC EXAMINERS

Presidential Message

I represented the Board of Examiners at the fall meeting of the Federation of Chiropractic Licensing Boards (FCLB). The National Board of Chiropractic Examiners (NBCE) and the Council on Chiropractic Education (CCE) presented the current state of our accreditation and Board examinations and the planned upcoming changes to our National Boards. The NBCE is working on modernizing part IV to be more case specific in testing the clinical decision making process of the student. The testing model is more in line with other health discipline testing formats. The NBCE is also looking to make possible changes to Parts I and II to test in a more clinical format and move on from retesting the basic sciences as they are currently formatted. The CCE is working on a model to create language that is universal regarding licensure that may be used in all fifty states. The model would be more in line with the current state of education and testing performed by other professions.

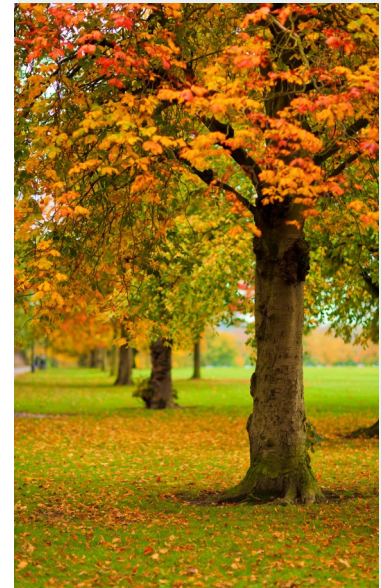

I was honored to present an award of recognition on behalf of the Board of Examiners to former Board member and past Board President Dr. Gary Randolph of Guin. Dr. Randolph retired after 60 years of practice and the community came together to honor him on his many years of service to their community. Dr.

Dr. Donald Eugene Stowe—Dr. Stowe studied Chiropractic at Life University and received his license in 1981.
He lived in Opelika, AL
and practiced in Phenix City, AL and Monroeville, AL.

The Board and staff send condolences to the family and friends of Dr. Stowe.

IN APPRECIATION

This letter is to show my appreciation for the prompt and ethical work of the Alabama State Board of Chiropractic Examiners.

Being a fresh graduate from chiropractic school at Life University, achieving state licenses has been quite the experience. My original plan was to work in Georgia, so naturally I applied for my Georgia license as soon as possible. Not every call that I made to the Georgia Board was answered, and the Georgia office did not seem to know how to help me when we actually connected. I had to wait and hope that everything that I submitted was correct. There were some items that were not confirmed received for over 2 months.

The truth is, very few job opportunities will consider fresh graduates until the official license drops. That leaves some of us with no income or place to live. However, I do understand that licensing requires some time and commitment to the process. This story is why I applaud the Alabama State Board of Chiropractic Examiners. I see that they are their own entity and are dedicated to helping applicants promptly. Every phone call or email that I've made has been answered the same day.

Kerry Forbus was able to answer all of my detailed questions. Kerry sent me an application packet with a detailed checklist the day after I paid my fees and has been extremely helpful through the process.

Thank you for all the help!

Presidential Message Continued

Randolph received proclamations from the State legislature, the Mayor of Guin, the ASCA as well as the ASBCE.

I would like to introduce the Board's new employees Angela Johnson and Kelli Smith. Angela will be in charge of Initial License/Permit applications, receiving continuing education hours and license and permit renewals. Kelli will handle seminar applications and approvals and receive continuing education hours. Kerry Forbus will now be handling our complaints in addition to her other duties.

We are now in the second month of renewal and if you did not complete your renewal in September you now owe an additional \$100.00 for October. I encourage all to renew now to avoid any additional late fees.

Brian Wells, DC
President ASBCE

Meet Our New Staff Members

New Employee Kelli Smith

My name is Kelli Smith and I am excited to join the Alabama Board of Chiropractic Examiners this fall as an Administrative Support Assistant. A life-long enthusiast of holistic and preventative wellness, it thrills me to have the opportunity to support chiropractors and their patients behind the scenes assisting with the business of renewals, seminar credentialing, data entry, file management...and anywhere else they will let me!

I earned degrees in Sociology from Auburn University Montgomery (1998) and a Master of Education from the University of Montevallo (2001) before starting a family with my wonderful husband of over 20 years, David. We are blessed with three young adult children whom we've had the privilege of home educating from preschool through high school. Our eldest is a mechanic, our middle is in college pursuing counseling, and the caboose just started her freshman year of high school. We could not be more proud!

I love to learn new things, so every chance I have you will find me reading a book, listening to a podcast or experimenting with a new hobby. This year I completed a 52-book challenge, started a garden in the backyard and tried out Jiu-Jitsu.

I'm excited for this new journey and all the future holds.

Serve one another in love. Galatians 5:13

New Employee Angie Johnson

My name is Angela Johnson and I am happy to be joining the staff at the ASBCE -Alabama Board of Chiropractic Examiners. In my role as Administrative Support Assistant II, I will be handling new applications, licensure, verification, and renewals as well as assisting with other tasks as needed. I am eager to learn all I can to better assist you in your profession.

I was born in Alexander City, Alabama and currently reside there. My husband and I have three beautiful daughters and six wonderful grandchildren. I enjoy spending time with friends and family. I also enjoy singing and playing piano at my church.

"For I know the plans I have for you," declares the Lord, "plans to prosper you and not to harm you, plans to give you hope and a future." Jeremiah 29:11
